

ClearCase® Remote Client (CCRC) Intermediate

WINDOWS ■ BASE CLEARCASE ■ REMOTE CLIENT

ID: CCRC-BASE-INT

Overview

Recommended follow on to the *ClearCase Remote Client Fundamentals* course for software developers. This one-day, hands-on course covers parallel development aspects of the tool required for most software development efforts.

Prerequisites

- *ClearCase Remote Client Fundamentals* course or equivalent ClearCase experience.

Objectives

At the end of this course, students will understand the parallel development aspects of CCRC and will be able to use CCRC tools and procedures to accomplish typical software development configuration management tasks.

Outline

| | |
|----------------------------|---|
| Diff Tool | Comparing versions |
| Merge Basics | Using basic merge operations on a sample file |
| Batch Merge | Using the batch merge tool to merge sets of files |
| Directory Merge | Merging directory versions |
| Checkout Special | Checking out when latest version is not loaded |
| Unreserved Checkouts | Working in parallel on the same branch |
| Labels and Baselines | Creating labels and baselines in the VOB |
| Advanced Version Selection | Editing version selection rules and identifying syntax errors |
| Config Spec Make Branch | Creating an automatic make branch rule |
| Review | Developer life-cycle review exercise |

Optional Modules:

| | |
|---------------------------|--|
| .NET Front Desk | Introduction to IBM® Rational® .NET Front Desk |
| .NET ClearCase Operations | Standard ClearCase operations in .NET |
| .NET Add to Source | Add .NET projects and resources to version control |
