

IBM® DOORS® Next Generation Author Fundamentals

WEB INTERFACE ■ DNG VERSION 5.0.1

ID: DNG-A-FUN-WEB-5

Overview

This one-day, hands-on class covers the fundamentals of authoring requirements using DOORS Next Generation (DNG).

Audience

- Business analysts and individuals responsible for authoring product requirements.

Prerequisites

- Basic knowledge of requirements process and terminology is helpful.

Objectives

At the end of this course, students will be able to use DNG to browse, view, create, modify, and link requirement artifacts.

Standard Topics for Authors (Choose any 18)

Overview	Overview of DNG artifacts, attributes, and review process
Logon	Logon to the DNG web client
Artifact Page Basics	Project page overview and basic page configuration
Filters	Create filters to display artifacts
Configure Page Settings	Columns, grouping, page size, and tree view
Views	Save artifact filter and page settings as view
Navigation	Open artifacts, use breadcrumbs, find recently-viewed artifacts
Artifact Content	Understand layout of artifact contents and sidebar information
Comments	View, reply to, resolve, and create comments
Create Artifact Links	Create links between artifacts, and use Links explorer
Create and Edit Artifacts	Create/edit artifacts, artifact templates, spell check
Artifact Attributes	Set attribute values
Module Navigation	Module structure and artifact access within a module
Module Views	Save module filter and display settings as view
Module Comments	Comments on base artifact vs. comments in context of module
Module Links	Links on base artifact vs. links in context of module
Module Add and Edit Artifacts	Create new and add existing artifacts to module
Dashboards	View and modify personal dashboard and mini dashboard
Create Content Links	Create and view links from artifact content
Collection Basics	Open, filter, and compare collections
Tags	Create and filter on tags
