IBM® DOORS® Next Generation Author Fundamentals

Overview
This one-day, hands-on class covers the fundamentals of authoring requirements using DOORS Next Generation (DNG).

Audience
▪ Business analysts and individuals responsible for authoring product requirements.

Prerequisites
▪ Basic knowledge of requirements process and terminology is helpful.

Objectives
At the end of this course, students will be able to use DNG to browse, view, create, modify, and link requirement artifacts.

Standard Topics for Authors (Choose any 18)

Overview	Overview of DNG artifacts, attributes, and review process
Log on to DNG	Log on to the DNG web client
Artifact Page Basics	Project page overview and basic page configuration
Filters	Create filters to display artifacts
Configure Page Settings	Columns, grouping, page size, and tree view
Views	Save artifact filter and page settings as view
