

IBM® DOORS® Next Generation Reviewer Fundamentals

WEB INTERFACE ■ DNG VERSION 6.0.1

ID: DNG-R-FUN-WEB-6

Overview

This one-day, hands-on class covers the fundamentals of reviewing requirements using DOORS Next Generation (DNG).

Audience

- Business analysts and individuals responsible for reviewing and approving product requirements.

Prerequisites

- Basic knowledge of requirements process and terminology is helpful.

Objectives

At the end of this course, students will be able to use DNG to browse and view requirement artifacts and to take those artifacts through a review process.

Standard Topics for Reviewers

Overview	Overview of DNG artifacts, attributes, and review process
Logon	Logon to the DNG web client
Artifact Page Basics	Project page overview and basic page configuration
Filters	Create filters to display artifacts
Configure Page Settings	Columns, grouping, page size, and tree view
Views	Save artifact filter and page settings as view
Navigation	Open artifacts, use breadcrumbs, find recently-viewed artifacts
Artifact Content	Understand layout of artifact contents and sidebar information
Comments	View, reply to, resolve, and create comments
Module Navigation	Module structure and artifact access within a module
Module Views	Save module filter and display settings as view
Module Comments	Comments on base artifact vs. comments in context of module
Dashboards	View and modify personal dashboard and mini dashboard
History and Baselines	View artifact history and baselines
Using Reviews	Review and approve artifacts
