

Rational Team Concert™ Team Collaboration

WEB INTERFACE ■ RTC VERSION 6.0.1

ID: RTC-COL-WEB-6

Overview

This one-day, hands-on class covers work items, quick planner, queries, and dashboards with the Rational Team Concert web interface.

Audience

- All project contributors who will use the web interface to create and edit work items, or monitor work item progress and project schedules.

Prerequisites

- No previous Rational Team Concert experience required.

Objectives

At the end of this course, students will understand Rational Team Concert workflow and work items. They will be able to use Rational Team Concert to accomplish typical work item/issue capture, scheduling, task list management, and project collaboration.

Outline

Team Collaboration Overview	Overview of Rational Team Concert team collaboration
Log on to RTC Web Client	Log on to RTC user pages
Navigating RTC Projects	Navigating RTC project data in the web client
