

# Rational Team Concert™ Team Collaboration

ECLIPSE® INTERFACE ▪ RTC FOR SYSTEM z VERSION 3.0.1

ID: RTC-COL-Z-301

## Overview

This one-day, hands-on class covers work items, project plans, queries, reports, dashboards, and scheduling with the Rational Team Concert Eclipse interface.

## Audience

- All project contributors who will use the Eclipse interface to create, edit, or monitor work items, project schedules, plans, reports, and dashboards.
- For developers, we recommend this course followed by Island's one-day *Rational Team Concert Source Control* class.

## Prerequisites

- Basic knowledge of the Eclipse IDE is helpful.
- No previous Rational Team Concert experience required.

## Objectives

At the end of this course, students will understand Rational Team Concert workflow and work items. They will be able to use Rational Team Concert to accomplish typical work item/issue capture, scheduling, task list management, and project collaboration.

## Outline

Overview	Overview of Rational Team Concert
RTC Logon	RTC logon in the Eclipse IDE; connect/disconnect RTC projects
Client Basics	Project selection and the basics of using the Eclipse client
Work Item Basics	Find and create work items; contribute to discussions
