

Exactly What You Need—When and Where You Need It

An IBM® Business Partner, Island Training specializes in software sales and services for IBM Rational® Jazz™ and legacy tools. Our value packages include licenses, consulting, and training to get you up to speed faster with IBM Rational tools.

- **IBM Rational value-added reseller** for software sales and license renewals.
- **Consulting services** for tool implementation, application integrations, environment customization, and upgrades.
- **Mentoring support** for SDLC optimization, including special topics like Agile development.
- **Mainframe modernization** services for Jazz CLM tools.

Enablement for Large and Small Groups *anywhere@anytime*

- Role-based training with ideal 80% lab and 20% lecture mix, so students leave class ready to use the tool for their specific tasks in their environment.
- Support for all RTC client interfaces, including Eclipse™, .NET, Web, Shell, and RTC/RDz integrated interface for z/OS® developers.
- Virtual training infrastructure with live, world-class instructors.
- Configure customized curriculum from our extensive library of training modules, or choose a standard course:
